Dear Jana,

It was a really huge pleasure for me to work with you and the young artists from Ya/Ya Inc on the art-social project Floodwall in Wrocław. It was extraordinary for both its success as an acclaimed installation in the National Museum and for me and young volunteers as a community outreach. It was a great possibility to create with you and all the artists coming from New Orleans numerous of fantastic events and workshops – for us that was great experience and inspiration for the future.

I look forward to our continued cooperation.

Sincerely,

Liliana Chromińska
